

Wisconsin's Adult Long Term Care Functional Screener Training Course

Course Description:

This course provides comprehensive information and training in administration and completion of the Adult Long Term Care Functional Screen (LTC FS) for individuals applying for Wisconsin's long-term care programs. These programs include the Community Options Program (COP), Community Integration Program (CIP), IRIS, Family Care, Partnership and PACE.

Only qualified and experienced professionals who have passed this online certification course and who meet additional requirements prescribed by the Department of Health Services (DHS) are permitted to complete the Adult LTC FS.

This course is structured in modules that are consistent with the Department's document titled Wisconsin Long Term Care Functional Screen Instructions, which may be viewed online at <http://www.dhs.wisconsin.gov/LTCare/FunctionalScreen/instructions.htm>.

Already registered? Go to your Curriculum to access the course.

Target Audience:

Wisconsin social workers, registered nurses and other health care professionals seeking certification to administer functional screens for an agency approved by DHS.

Approximate Course Completion Time:

The average individual spends approximately 12 hours to complete this course. This course may be completed at the pace dictated by each user; logging in and out of the course over a period of hours or days is permitted.

Course Outline:

#	Module	Estimated Completion Time
